

Greenfield's Squirrel Census 2020

A fun, stay at home project! Help us make sure every Squirrel is counted!

How to Take Part

Simply scan the QR code on the top right with your Mobile Device to download the App.
Add your email to log in – you'll be sent a pin code to access the app.
Once you log in, create a profile and upload a profile picture (optional).

Next, watch for squirrels in your garden, neighborhood or on short walks.
To track a sighting click the "Record a squirrel sighting" on the home screen and fill out the details.

You can record the squirrel type, the squirrel activity, number of squirrels and the city and zip code of the sighting.
You can also add notes if you see anything interesting, like other wildlife.
Earn digital badges on your profile by recording your sightings!

Squirrel Spotting Tips

Squirrels can cause problems for homeowners. So we do not recommend putting out food, or any attempts to attract them to your garden or home. Simply watch and record the squirrel activity that's already taking place.

Special thanks to our friends at the Milwaukee County Parks for developing this program!
